

Technical Data	U.S. Units	Metric Units		
Cavity	T - 2 A			
Body Features	Through port I with reverse flow check			
Body Type	Line mount			
Interface	N o n e			
Open Cavity Quantity				
Weight	3.096 lb.	I,404 kg.		
Mounting Hole Thread	.375-16 UNC - 2B in.			
Mounting Hole Depth	.62 in.	15,7 mm		
Mounting Hole Quantity		2		
Includes integral cartridge(s)	Yes (see Included Components)

DESCRIPTION

T-2A Line mount
Through port I with reverse flow check

DWG SIZE SHEET

С

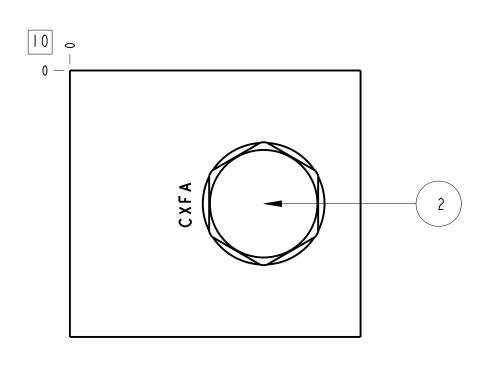

**SUD** hydraulics

## <u>Notes</u>

- 1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.

  2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
