

Technical Data	U.S. Units	Metric Units		
Cavity	T - I I A			
Body Features	Ninety degree with revers	se flow check - reducing		
Body Type	Line mount			
Interface	None			
Open Cavity Quantity	I			
We i ght	1.266 lb.	0,574 kg.		
Mounting Hole Diameter	.34 in.	8.6 mm		
Mounting Hole Depth	Through			
Mounting Hole Quantity	2			
Includes integral cartridge(s)	Yes (see Included Components)			

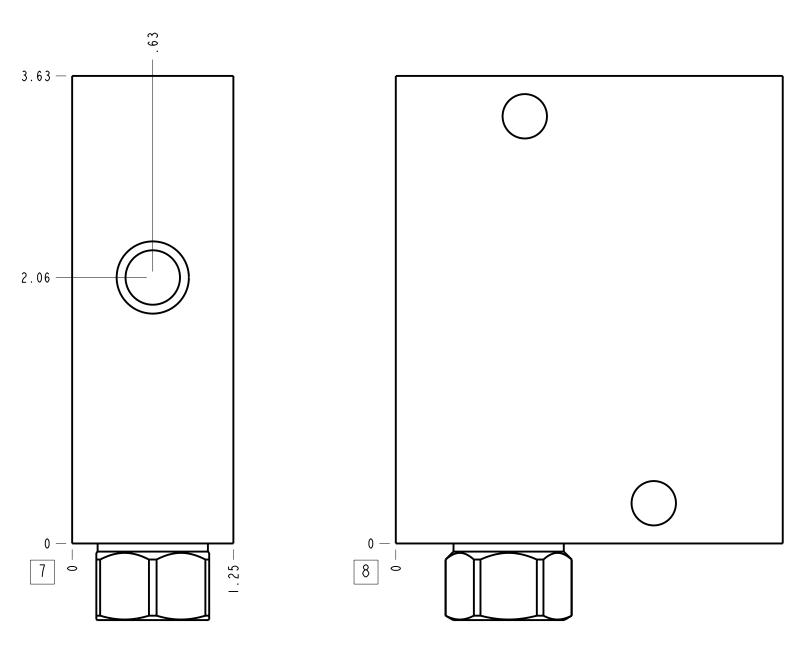

Notes  1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.  2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control
