

Technical Data	U.S. Units	Metric Units		
Cavity	T-IIA			
Body Features	Ninety degree with reverse flow check - reducing			
Body Type	Line mount			
Interface	N o n e			
Open Cavity Quantity	ı			
Weight	I.244 lb.	0,564 kg.		
Mounting Hole Diameter	.34 in.	8.6 mm		
Mounting Hole Depth	Through			
Mounting Hole Quantity	2			
Includes integral cartridge(s)	Yes (see Included Components)			

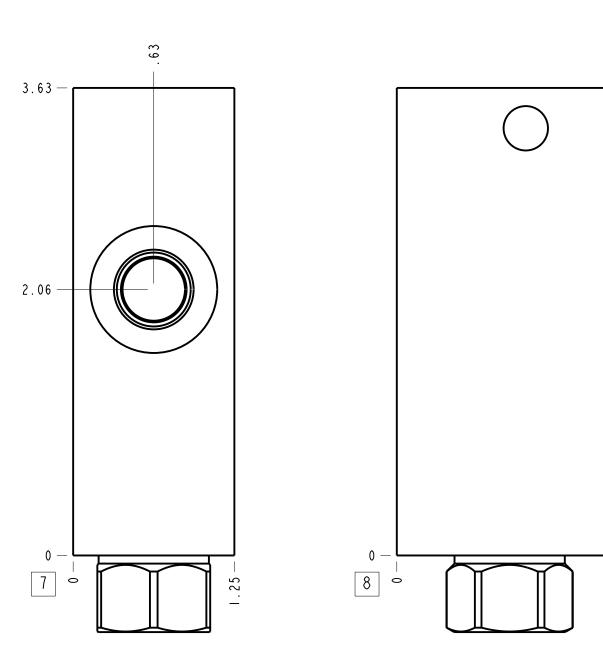

Νο	- 52
	Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
