

Technical Data	U.S. Units	Metric Units			
Cavity	T - I I A				
Body Features	Ninety degree				
Body Type	Line mount				
Interface	None				
Open Cavity Quantity	I				
We i ght	0.756 lb.	0,343 kg.			
Mounting Hole Diameter	.34 in.	8.6 mm			
Mounting Hole Depth	Through				
Mounting Hole Quantity	2				

## <u>Notes</u>

- 1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.

  2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
