

Technical Data	U.S. Units	Metric Units			
Cavity	T - I O A				
Body Features	Ninety degree				
Body Type	Line mount				
Interface	N o n e				
Open Cavity Quantity	I				
Weight	1.612 lb.	0,731 kg.			
Mounting Hole Thread	.375-16 UNC - 2B in.				
Mounting Hole Depth	.62 in.	15,7 mm			
Mounting Hole Quantity	2				

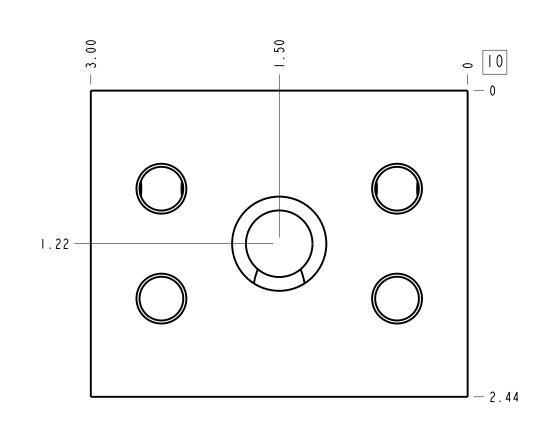

<u>Notes</u>

- 1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.

 2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
