

Technical Data	U.S. Units	Metric Units			
Cavity	T - I 7 A				
Body Features	Ninety degree with reverse flow check - reducing				
Body Type	Line mount				
Interface	None				
Open Cavity Quantity	l				
Weight	6.317 lb.	2,865 kg.			
Mounting Hole Diameter	.41 in.	10,4 mm			
Mounting Hole Depth	Through				
Mounting Hole Quantity	2				
Includes integral cartridge(s)	Yes (see Included Components)				

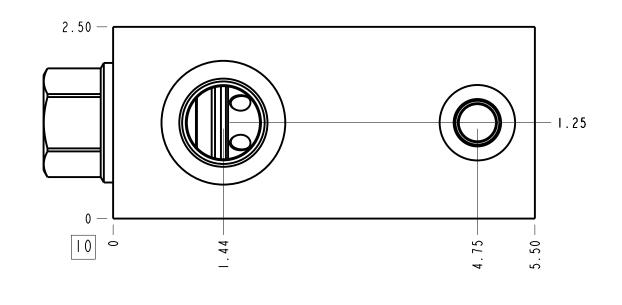

<u>Notes</u>

- 1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.

 2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
